Product Summary

Field of application:

Plant and equipment for processing of raw materials

	ABB Automation GmbH	Achenbach Buschhütten GmbH & Co. KG	ANDRITZ AG	BWG Bergwerk- und Walzwerk-Maschinenbau GmbH	CMI Industry	Maschinenfabrik Gustav Eirich GmbH & Co KG	Danielli & C. S.p.A.	Fives Group	GLOBUS S.r.l.	Heinrich Georg GmbH	Lechler GmbH	Hugo Miebach GmbH	Outotec	PAUL WURTH S.A.	REDEX	Primetals Technologies	SMS group
Handling of ore, coke and other raw material						●								●			
Processing of ore and/or scrap						●							●	●		●	●
Coking plant facilities														●		●	●

Plant and equipment for iron making/reduction processes

Blast furnace processing														●		●	●
Reduction processes (electric, direct, melting)													●	●		●	●

Steel production plant and equipment

Steel production BOF route											●					●	●
Steel production EAF route											●		●			●	●
Secondary Metallurgy													●			●	●
Continuous casting (near-net-shape/strip/horizontal)											●					●	●

NF Metal production, plant and equipment

Reduction refining (incl. electrolysis)													●	●			●
Melting reduction			●										●				●
Continuous casting			●														●

Plant and equipment for shaping of steel

Complete plants (eg. rolling mills)			●		●			●				●				●	●
Reheating furnaces			●		●			●								●	●
Hot/cold rolling of steel			●		●			●			●	●				●	●
Other hot/cold shaping processes (e.g. forging)			●								●						●

Plant and equipment for shaping of NF-Metals

Complete plants (eg. rolling mills)		●	●									●				●	●
Hot/cold rolling of NF-Metals		●	●								●	●				●	●
Other hot/cold shaping processes (e.g. forging)			●								●	●					●

Strip processing lines

Continuous annealing			●	●	●			●				●					●
Pickling			●	●	●			●	●			●					●
Galvanizing			●	●	●			●				●					●
Colour Coating			●	●	●			●	●			●					●
Tinning Lines			●									●					●

Finishing line equipment for

Flat products		●	●	●	●			●	●	●	●	●			●	●	●
Long products					●			●			●				●	●	●
Tubes/Pipes								●								●	●

Electrical Drives and (integrated) automation system

	●	●	●					●		●				●		●	●
--	---	---	---	--	--	--	--	---	--	---	--	--	--	---	--	---	---

Miscellaneous Equipment

Storage and conveying			●	●		●										●	●
Metal-cutting machinery			●							●						●	●
Water hydraulics											●					●	●
Auxiliary (eg. roller bearings, wear parts)			●									●		●	●	●	●
